

# TIME & ATTENDANCE *by BASIC*

## Automated Software Managing Labor Cost

BASIC Labor Management Software (lms.net) helps mid-level private and public sector companies manage labor costs and maximize profits. BASIC's labor management software includes time and attendance, integrated payroll software, scheduling and data collection devices. It is both user-friendly and cost effective providing your company with a competitive edge.

BASIC's lms.net is available as Software as a Service (SaaS) via the internet. Our certified SSAE-16 | SOC1 data center with redundant systems and geographically dispersed back-up centers meet industry recognized requirements for security and reliability. Organizations that partner with BASIC are able to leverage our development team to address challenges promptly and efficiently.

## SaaS Time & Attendance Benefits:

- Eliminate manual time cards and data entry errors
- Insure accurate reporting and increase administrative productivity
- Reduce unapproved or fraudulent overtime
- Eliminate buddy punching
- Reduce IT support cost for software maintenance

## The BASIC Difference

With BASIC labor management system (lms.net), you will have the software, hardware, service, and support necessary to collect, manage, and organize the time data to process payroll. Our time and attendance software is configured to your company rules and to stay in compliance, accurately track employee time, while interfacing with the data collection device that best fits the need of your organization. LMS.net can integrate seamlessly with BASIC's Payroll & HR platforms, or with any other platforms to provide smooth on-boarding of new hires and transfer of time data for payroll processing.

When you chose BASIC, you partner with a leader in labor management software. Nationwide clubs, manufacturers, health care facilities, distributors and professional practices use BASIC's Labor Management System.

**Eliminate manual processes, enable accurate reports and reduce fraudulent overtime with BASIC's time and attendance solution now!**
