

# COMMUTER ACCOUNTS *by BASIC*

Costly commuting expenses can cause undue stress and reduced enthusiasm at work. Employers can alleviate some of their staff's commuting costs by offering Section 132 Plans. These plans allow employees to contribute pretax dollars\* to pay for qualified transportation expenses associated with commuting to work.

Implementing a BASIC Commuter Account can save you and your employees thousands of dollars in taxes every year. Employees save between 15% - 40% toward eligible expenses, while employers save 7.65% on FICA taxes for each dollar contributed. It's a winning combination for everyone. BASIC Commuter Accounts, like all of our accounts, come with the BASIC Card to make paying for eligible expenses effortless.

1

Separate monthly maximum pretax limits apply to parking, transit, and bike benefits.\*

## Regulation Compliance Made Easy With Tech

Employees choose which BASIC Commuter plan(s) they would like to enroll in and how much they want to elect each month. Enrollment is made easy through EDI file feeds.

- Participants can enroll, change or stop their contribution amounts every month through our benefits portal.
- Funds are available after contribution, and employers can choose to automatically rollover unused participant funds to the next month.

Our modern integrated benefit platform allows you to add additional benefit accounts without any extra workload.

Transit expenses must be purchased with a benefits debit card, as cash reimbursements are not compliant.
